Health & Fitness Club - ER Model (Group of 3)

Aligned with the team repository: Member_ERD.pdf + Trainer SQLAlchemy models

Legend: Underlined/(PK) = key; 1 = exactly one; 0..N = zero or many; 0..1 = optional one.
Double outline = weak HealthMetric; identifying Records relationship; * = proposed field (not in original Member diagram).
Member.name is stored as first_name + last_name; age is derived. TrainerAvailability matches existing SQLAlchemy fields.
